305 CGR Fuel Surcharge

The FSC will be calculated monthly. It will be based on the average price of "Diesel (On-Highway)" as determined by the US Department of Energy of the second calendar month prior to the month in which the FSC is applied. For example, the FSC in January will be calculated on the average OHD price for the month of November. **CGR Fuel Surcharge 305** will be .01 cent per rail mile for every .04 cents per gallon by which the OHD average price for the Calendar month 2 months prior to the calendar month of shipment exceeds $2.14 per gallon.

The following table reflects a sampling of the fuel surcharge within the included OHD Average Price ranges:
