Rates contained in this tariff can be used in combination with rates named in other publications to construct through rates only where specified in the rate item. Construction of such rates will not be made to defeat a through rate nor for aggregate of intermediate application at origin or destination or unless otherwise stated. Combination rates will divide as made.

PROPORTIONAL RATES:

Proportional rates, which by their terms are limited in their application to traffic destined to, originating at, specific points or territories, including rates which are published for application of traffic “when from beyond” or “when for beyond”, apply only when the entire through transportation is performed by railroads by rail, subject to AAR accounting Rule 11.
